“To nurture confident, value-driven learners through quality education, strong character, and lifelong skills.”

Welcome to Our School Newsletter!

As we celebrate another year of learning, growth, and achievements, we take pride in our students, teachers, and parents who make our school community so special. In this edition, you can read about student successes, exciting events, activities, and the latest updates from our school. Together, we continue to inspire, explore, and excel in both Deen and Duniya, and look forward to more memorable moments ahead!

State Level Muay Thai Champion

Celebrating 18 Years of Excellence

“Whoever travels a path in search of knowledge, Allah will make easy for him a path to Paradise.” – Sahih Muslim

Our journey began in 2007 as eKIDZ – A Play School with just 4 Nursery students, introducing one of the first playschool models in the Old City of Hyderabad. The next year, we grew to Playgroup, Nursery, Jr. KG, and Sr. KG with 18 students.

By our fourth year, encouraged by parents, we added Grade 1. In 2011, we expanded up to Grade 7 with 300 students, moved to a larger campus, and became eKIDZ – The School. During the pandemic, we paused to rebuild. Post-pandemic, we strengthened

our academic ecosystem with partners like Lead Group, Learning Curve, ISLI, 321, Beam Publications, and KI Labs.

In 2024, we launched the eKIDZ Hifz Academy, now nurturing 30 students. Since our first SSC batch in 2019, we’ve maintained a 100% pass rate with GPAs from 7.2 to 9.5.

Looking ahead, InshaAllah, we plan to introduce NEET & JEE-Main foundation courses from Grade 6, expand advanced Robotics and STEM, and continue evolving as a fully AI-enabled school.

Student-Led Conference

A Student-Led Conference (SLC) is a special meeting where students take the lead in presenting their learning progress to their parents. Instead of teachers speaking on behalf of the child, the student explains their achievements, challenges, work samples, goals, and areas for improvement. This process builds confidence, communication skills, responsibility, and ownership of learning.

The teacher guides and supports, but the spotlight is on the child and their growth.

Learning Beyond the Classroom ~Maira Fatima

School events, clubs, and competitions help students explore interests, build confidence, develop skills, strengthen leadership and teamwork, and inspire creativity beyond the classroom.

The Power of Speaking English ~Maaida Ashraf

Speaking English daily improves communication, builds confidence, and helps us share ideas clearly, while activities like English week provide fun practice to overcome hesitation and learn new words.

Character matters more than marks ~Shaik Rehan

Character is shown through honesty, responsibility, and discipline in our daily actions, not just by marks or academic performance. Responsibility is shown when we complete our duties sincerely and take ownership of our actions.

Faith and modern education ~Abdul Hafeez

At our school, we believe in faith along with modern education. Modern education for us means becoming a Hafiz-e-Qur'an while still excelling in academics. This balance helps us develop good habits, improve our behaviour, and grow into confident and responsible students.

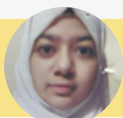

Memories and Moments: Seniors Speak

Building our future at ekidz ~ Zoya Fatima

At eKIDZ, we learn and grow and follow our dreams. Our school teaches us teamwork and leadership. Together, we build good values and confidence, which help us become better students and better people.

AI and Robotics ~Husna Naseer

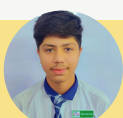

AI plays an important role in today's education. Smart apps provide personalized learning and help us develop creativity and problem-solving skills. Our school introduces us to career opportunities in AI and cybersecurity by building basic coding, analytical thinking, and digital skills.

Environmental Awareness ~Shaik Numaan

The environment plays an important role in shaping tomorrow's world. In our school, we take actions to protect the environment by reducing waste, using reusable water bottles, and organizing tree plantation drives. These small steps help us care for nature and create a better future.

Act of kindness ~Abraar Ameer

"We learn to help our classmates and support our community. By being patient and speaking kindly, we build positive relationships and create a caring and respectful environment.

Healthy mind, healthy body ~zareen Unissa

We follow a healthy lifestyle by getting enough sleep, exercising daily, and eating nutritious food. We drink enough water and avoid junk food. We balance our study time and play time and spend our time in an organized way with our friends and family.

Sports and teamwork ~ Sana Fatima

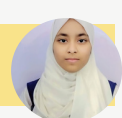

The playground teaches us many important lessons. We learn teamwork, understand leadership, and accept both winning and losing. Losing gracefully and playing fair are more important than winning, and these values help us develop true sportsmanship.

Exam stress and stay positive ~ S.A Rahman

"We follow a study routine to stay organized and use relaxation techniques to remain calm. We avoid distractions to improve our productivity, stay physically active, and eat balanced meals. Most importantly, we believe in ourselves and work hard to achieve our goals.

Technology: A Friend or a Distraction~Hooriya Shakeel

Technology supports learning and creativity, but overuse—especially of social media—can distract students. Using it wisely with clear limits helps maintain a healthy balance between learning and screen time.

Friendships and Growth ~Shahzadi Safura

Our school has given us beautiful memories and helped us grow stronger together. We have built unbreakable bonds and learned the true meaning of teamwork, support, and trust. Because of this, our school life is happy, joyful, and memorable.

Tips For Juniors ~Ayesha Firdos

Dear Juniors, Stay focused and plan your day wisely. Completing your homework and classwork on time will help you greatly during exams. Respect your teachers and never be afraid of making mistakes—they help you learn and improve. Remember, if you work regularly and stay confident, success will naturally follow. ✨

"We may leave the classroom, but the lessons stay with us forever."

BOXING CHAMP

Sana Fatima, ~10th class
Won Boxing Championship Women.
Silver Medal

Sports and Karate

Our students actively participate in karate and various sports, building strength, discipline, and teamwork. These activities help them stay healthy, confident, and focused while having fun. We are proud to see our young learners grow physically and mentally through regular practice and games.

Teachers Training

To strengthen holistic learning, eKIDZ High School conducts weekly teacher training program led by school leadership and the publisher team, focusing on effective pedagogy, learner-centric practices, classroom engagement, and regular observation-based feedback.

نرمی سے ربو، سیکھو، اور اللہ کے راستے پر چلو۔

LEARNING WITH PURPOSE: DEEN WITH DUNIYA

Our school focuses on teaching both Deen and Duniya, helping students grow with strong Islamic values and modern education. Along with academic subjects, many students have successfully completed their Hifz journey through dedication and guidance from caring teachers. This balanced approach builds knowledge, character, discipline, and faith, preparing students for success in this world and the Hereafter.

~Shaik Sufiyan ~ 8th Grade

National Championships 2025

We are proud to share that **Shaik Sufiyan of grade 8** has won the **Science Champs Senior** title at the **Regional round of the National Championships 2025!** This remarkable achievement reflects the dedication and hard work of our school leaders, teachers, students, and parents. We look forward to cheering for our student in the **Final Round of the National Championships!**

Empowering Students with AI and Robotics

Our school introduces students to Artificial Intelligence to build critical thinking and problem-solving skills. Through interactive lessons, students learn how technology works and how to use it responsibly. This knowledge helps prepare them for future careers while staying grounded in strong values.

Robotics classes allow students to learn by building and experimenting. Through practical activities, students develop creativity, teamwork, and logical thinking. This hands-on approach encourages innovation and prepares students to face future technological challenges with confidence.

Little Learners, Big Adventures!

The pre-primary stage is the foundation of a child's learning journey. It is a phase where young minds explore, observe, and learn through joyful experiences. At this age, children grow best in a caring, safe, and stimulating environment.

Learning is fun when we play and explore!

Our pre-primary program focuses on play-based learning, helping children develop language, social skills, creativity, and confidence. Activities like storytelling, music, art, rhymes, games, and hands-on tasks make learning fun and meaningful.

We encourage curiosity, independence, and good habits while nurturing emotional and moral values. Through gentle guidance and personal attention, children feel secure and excited to come to school every day.

The goal of pre-primary education is not only academic readiness but also the overall development of the child—physically, emotionally, socially, and intellectually—laying a strong foundation for lifelong learning.

Founder & Director

M.A. (English), PGDBM, B.Com.

Certified Teacher Trainer • Recipient of Prestigious Academic Awards.

Vidya Ratna Awardee, National Shiksha Award Winner.

With the grace of Allah, eKIDZ At eKIDZ, our vision remains High School proudly completes clear: to nurture children who 18 years of meaningful service excel in both Deen and in education. Our journey—from Duniya, with strong values, starting with just four students confidence, and high in 2007 to becoming an AI- academic achievement. I enabled institution with Hifz thank each parent for being a Academy, strong academics, partner in this mission, and and holistic programs—reflects together, InshaAllah, we will the trust of our parents and the continue building a brighter dedication of our teachers future for every child.

Education with Iman leads to true success.

Abdullah Jabri

My kid is in 1st standard and I feel happy and proud that he is growing in good environment. Education is crucial in every child's life but alongside Deen and Islamic knowledge is also important and both you find it here in eKIDZ school.

Thank you for the management who is maintaining such peace.

Parent: Noorain Nayeem

E.kidz High School offers a safe, clean, and child-friendly environment. Caring and professional teachers give personal attention, and the supportive management ensures strong communication with parents. Highly recommended for quality education! 😊❤️😊
